

# NORTHWESTERN ONTARIO MONTHLY EOC NET

## PREAMBLE

CQ CQ CQ This is VA3ETB, EOC STATION in Thunder Bay, this is the Northwestern Ontario monthly EOC net for Date: \_\_\_\_\_. My name is Eric, VE3XET. I am the local ARES EC for Thunder Bay. This net meets the first Thursday of every month at 22:00 UTC (5:00p.m. EST, 4:00 p.m., CST), on 3.6750 MHz, from our EOC stations. The purpose of this NET is to test the operation of our EOC stations, and to give our operators practice operating these stations. This is a closed NET operating from our EOC stations only. However, if you would like to assist, please contact your local ARES EC. This is a directed net, so please go through the Net Control Station. Before I take check in's, I will ask if there are any stations with emergency or priority traffic.

Any relays?

I am going to call each EOC separately, then I will ask if there is any other check in's. and I will also ask for any relay stations.

VA3EOA Atikokan  
VE3FHS Fort Frances  
VA3EMC Sioux Narrows  
VA3EMN Nestor Falls  
VA3EOD Dryden  
VE3EMK Kenora

Are there any other EOC stations that I may have missed?  
Are there any other stations wishing to check in.  
(after all check in's give a reminder about the weekly net)

Before we close this net I would like to remind everyone to check into our weekly NWO ARES net, every Wednesday at 2130 UTC (4:30pm EST, 3:30 CST) on this frequency 3.6750MHz.

I will be sending a report about this net to all EC'S and the DEC, using Winlink. Just a reminder we meet at this time and frequency on the first Thursday of every month, and I will send out reminder e-mails to all EC'S about the net. Any questions or comments can be directed to the net manager Eric Todd, VE3XET [etodd@tbaytel.net](mailto:etodd@tbaytel.net)

This will conclude our net; I would like to thank everyone who checked into the net. THIS IS VE3ETB EOC for Thunder Bay, clear & 73.
